DALLAS CENTER IA 50063

SUBJECT: Follow up Inspection for Closure of Earthen Manure Storage Basin
Brenton Whitman Farm - NW 1/4 of the SE 1/4 Sec. 30, T80N, R26W, Grant Twp.,
Dallas County
Facility No. 60039

Dear Mr. Brenton

On May 11, 2026, Dennis Thielen with Iowa DNR Field Office 5 inspected the closure of your basins at the above referenced facility. The liquid manure and manure solids had been removed, and the berms had been breached. The manure solids had been land applied. The requirements of 567 IAC 65.100(6) appear to have been met and no further action is required in terms of closure of this earthen manure storage basin. This field office considers this site closed.

You may contact Dennis Thielen (515-250-1798 or at Dennis.Thielen@dnr.iowa.gov) or this office with any questions or comments. Thank you for your assistance and promptness of closing your basin.

Sincerely,

Digitally signed by Ted Petersen
