Legal Description: Of a 55.446 acres tract of land out of the James Parclay Survey, Abstract No. 617, Erath County, Texas.

Property Description: Welcome to this beautiful 55.5 acre ranch estate located in Morgan Mill, Texas. This property is full of exciting features that hold endless potential for its future owners. Whether you are in search of a full-time home, or a weekend get-away property just an hour from the DFW metroplex, this property can handle it all.

It includes over 40 acres of sandy loam pasture suitable for grazing or hay production. It is developed with well-maintained cross fencing throughout and perimeter fencing to allow for rotational grazing or to support a sizable equine operation. Large pecan and live oak trees diversify the property along the outskirts of the pastures and through the residential area. They provide valuable shade during warm summer months and shelter wildlife, including native whitetail deer and turkey. Water is plentiful on this property with the North Paluxy river flowing through the west end of the ranch. This stream flows year-round under typical conditions, and provides fishing opportunities for large-mouth bass, catfish, and bluegill. Within the north pasture lies 2.5 stock ponds that serve as natural water sources for livestock. This property currently holds an ag exemption.

Improvements: Upon arrival at the property, you will be pleased to find improvements that were constructed with functionality and quality in mind. The stone front entrance equipped with an automatic gate sets the tone of the property and provides a sense of both privacy and security. The chip seal driveway is one of three access points to the property off the paved county road along the north boundary.

One of the most eye-capturing elements is an eight-stall horse barn with multiple turnouts, a walk-in tack room, a feed room, and loft space for hay storage. East of the barn lies a full-size set of pipe livestock corrals designed to process cattle with ease and to keep horses. Just beyond these pens lies a 160' x 300' lighted roping arena surrounded by smaller traps for your roping or cutting cattle needs. For quick and convenient rides, a 134' sandy round pen is located just behind the horse barn. For training purposes, you will find a horse walker and small round pen on the south side of the barn. The equine area is fully equipped with tie and wash racks as well as water troughs for your animals.

Additional infrastructure includes three metal shops. There is over 2,000 square feet of enclosed shop space equipped with tool shelving and plenty of floor space for feed storage and DIY projects. In the main shop is a climate controlled office area that includes a half-bathroom. There is additional open-sided space for equipment and hay storage that spans over 5,000 square feet. Behind the main shop is a large generator and propane tank to ensure that power is available even during area outages to keep the well water and lights running at all times.

Within the residential area, you will find unique historical features including a small log cabin, which is known as the oldest still-standing structure in Erath County. A large log barn and goat shed provide a great area for photography and bring additional rustic feel to the property. Consealed behind the log barn is a larger generator and propane tank that is able to provide power to the residential area for long periods of time. To meet your recreational needs, there is a 550 square foot brick ATV garage coupled with outdoor kennels for ranch-dog enthusiasts.
