Property Description:

Experience tranquility at this unique farm located in Miami County, Kansas. It boasts a beautiful farmhouse, outbuildings, ponds, and more. With agricultural income, recreational value, and a great homestead just minutes from Paola, Spring Hill, and Louisburg, Kansas, this property is perfect for anyone looking to settle down or add to their holdings in the area. This unique farmhouse holds the potential to be a charming bed and breakfast or event venue. The house is clean and in good condition. The main floor holds a master bedroom with a full bathroom, and two staircases at the front and back of the house. They lead to a second floor with three bedrooms and a full bathroom, which used to be leased as a separate apartment. The woodwork on the stairs and the rest of the house is original and in extremely good condition.

The heating, cooling, and electrical systems have all been upgraded. There are two heat pumps, one for each floor of the house. The house still rests on its original stone foundation, which has been reinforced over the years. The east side of the house has a newer poured basement and an outside door for maintenance purposes.

Charming and impressive for its age, the barn also holds potential for an event venue. The main level has a concrete floor and plenty of space for vehicles to drive in, as well as stalls for livestock. The south portion of the barn has a loft overlooking the space, and the rustic silo just outside the barn is the perfect blank canvas for a mural or a sign.

The farm holds ninety-three acres of productive cropland and ninety-four acres of pasture, perfect for expanding your agricultural portfolio. The property also boasts three ponds and a smattering of timber, providing opportunities for recreational hunting or fishing.
