Property Description:

This 345.49± acre Jewell County farm is a single contiguous tract that combines productive dryland cropland, natural drainage features, and excellent all-weather access. The property has highway frontage along the entire north boundary with county road access on both the east and west sides, allowing multiple convenient entry points for large equipment and grain hauling. This three-sided road access supports efficient day-to-day farming operations and adds long-term appeal for both operators and investors.

There are 339.15 FSA crop acres, of which 305.35 acres are currently in row crop with the balance in grass.

Overall, the farm presents a strong blend of open, highly farmable upland acres and complementary bottom and drainage ground within one large, continuous unit. The combination of extensive road frontage, efficient field layout, and solid soils makes this property well positioned as a scalable addition for an expanding farming operation or as a sizeable, income-producing land investment in north-central Kansas. A small 30-foot square area located in the northeast corner of the NW 1/4 of the SE 1/4 is owned by a neighboring landowner. It has been farmed together with the property and is included in the FSA crop acres, but it is not part of the land being sold.
