

ENERGY MANAGEMENT

EXPERIENCE

Farmers National Company Energy is the nation's premier energy management firm. We take pride in our team of experts including landmen, attorneys, certified public accountants and other oil & gas professionals that possess industry experience and knowledge you can trust. Whether you need the guidance of a Certified Trust & Financial Advisor mitigating your firm's asset management and audit risk, require back-office assistance in processing and distribution of revenue and data, or simply need someone you can trust with day-to-day ownership & title issues, lease & surface negotiations, and mineral valuations & sales, we have you covered. FNC Energy oversees more than 220,000 mineral, royalty, overriding royalty, and working interest assets across 40 states, giving us unmatched knowledge and skill in all active basins across the nation. In addition, FNC Energy has expertise in all facets of property management associated with energy production including oilfield surface negotiations, renewable projects and carbon storage. Our services are tailored to client needs and assets with a focus on convenience, revenue enhancement, risk mitigation, connecting our clients to the energy industry and equipping them to service their clients while building their business.
